Brand and product name

Net weight: 4 oz (113 g)

Ingredients

Distributed by and contact

LOT: leave blank

TallowPal label template

4 oz soap belly band

For: 4 oz Tallow Soap Bar

Sizes

Finished label (red cut line): 11 x 1.56 in

No bleed: we print this label edge to edge on a sheet.

Safe area (green dashed line): keep all words and logos 0.125 in inside the cut line.

Gray dashed lines mark the panels. Gray overlap areas are hidden when the band is wrapped.

Lines every label needs

The yellow boxes are suggested places. Move them if your design needs to, but keep every line:

1. Product name, on the front.
2. Net weight or contents, in the bottom part of the front.
3. Ingredients, in order. We give you the exact list for your formula.
4. "Distributed by" with your business name, city, state and ZIP.
5. A website, phone or address where customers can reach you.

Keep words at least 1/16 in tall (about 4.5 pt).

Leave the pink LOT box empty. We print the lot code there when we make your order.

Before you upload

Hide or delete the "TallowPal guides" layer so no lines print.

Export a PDF at the artboard size, or a PNG at 300 dpi or more.

Skip claims like heals, treats, cures, eczema, acne, SPF or antiperspirant.

Every design gets a label check from our team before it prints.
